

SOUL PURPOSE

Dear Soul Purpose Entrepreneur,
It is with great pride and honor that I welcome you into our Soul Purpose community.

You have taken a step in the right direction towards becoming a successful entrepreneur but most importantly, towards achieving "your soul purpose". However you define your Soul Purpose is totally your decision - my vision is to support you in achieving that goal..

Toward that end, we have produced a beautiful line of personal care products that are very tastefully designed and created with a global and multicultural sensitivity. With the inclusion of vitamin D, and other high quality botanicals and essential oils, we have created the next generation of personal care products. Not only do these products smell amazing, they are all-natural and organic and so they are good for you and our planet.

In addition to our beautiful signature line of products, we have also been blessed with a partnership with Youngevity Life Sciences which brings to us, a high quality line of nutritional products and award winning mineral makeup. There is something for every customer and at every price point in our catalog.

Our compensation plan is one of the most advanced and lucrative plans in the industry and we believe that your earning potential is tremendous.

I encourage you to keep in touch with your up line sponsor on a weekly basis. This will keep you connected and will give you the personal support and coaching that you may need. Also, dial into the Tuesday evening training calls. This is where you will receive up to date and current information as well as training and motivation to guarantee your success. Remember, you may be in business for yourself, but you are not by yourself.

Welcome again to your "Soul Purpose".

With love and gratitude,
Nadine Thompson
